

SPECIAL APPLICATION DROP-INS

ICE CHEST Non-Mechanical

Item No. _____

Quantity _____

WB-15

WB-19

WB-15 SHOWN

DESCRIPTION:

The WB series ice chests make it possible to put large capacity ice storage directly in your serving line. The convenience of a removable hinged lid is included. Maximize your efficiency - put ice service where you need it most.

The ice chest is fully insulated and provided with a factory applied gasket so that it can be installed in the finest wood fixtures without marring the counter top. The unit is constructed of stainless steel and is provided with a 1" IPS drain.

FEATURES:

- Fully insulated to hold ice longer
- Factory applied gasket - makes installation a snap and seals units to the counter top, thus eliminating seepage
- NSF certified

ICE CHEST

Non-Mechanical

MODEL	CUT-OUT REQUIRED	ICE CAPACITY (lbs.)	SHIP WT. (lbs.)
WB-15	13-1/2" X 17-1/4"	40	34
WB-19	17-1/4" X 22-1/4"	60	55

SPECIFICATIONS:

TOP: Constructed of 18 gauge, type 304 stainless steel, die stamped with a raised perimeter bead. There shall be a solid vinyl gasket under the beaded edge to form a seal to the counter top, thus preventing seepage or marring of the counter top.

ICE CHEST: The inner liner shall be 22 gauge, type 304 stainless steel. All corners are covered with a minimum 1/4" radius. A 1" dia. threaded drain fitting is provided.

INSULATION: The pan is fully insulated with high

density polystyrene, 1" thick on all sides, 1-1/2" thick on the bottom and enclosed with a 24 gauge galvanized steel outer liner. The entire unit is removable without the use of tools.

LID: The ice chest is provided with a double pan, insulated lid with a rubber, self-insulating hinge. The entire lid is removable.

Specifications subject to change without notice.
