Iced Tea Dispensers

Stainless Steel Construction

“TEA-RIFFIC” Designs for Foodservice.

Outstanding Quality that Out-Performs All Others!

Constructed to withstand the heavy use of busy foodservice operations, Curtis Stainless Steel Iced Tea Dispensers have the durability and performance to keep profits flowing. Attractive styling complements any decor and promotes sales with eye-catching thirst appeal.

Quality Construction Features For Years of Profitable Service.

- **Heavy Gauge 18.8 Stainless Steel Construction** – completely welded seams for long-lasting durability.
- **NSF Listed.**
- **Standard Welded Handles** – for easy lifting.
- **Tall Base Design** – 8 1/8" clearance makes filling tall iced tea glasses quick and easy.
- **Sloped Tank Bottom with Special Front Drain Design** – allows complete, waste-proof dispensing with no residue.
- **Stainless Steel Faucet Shaft** – integral to the tank virtually eliminates leaks and breakage.
- **Welded Lid Knob Stud** – prevents the possibility of contaminants entering tank.
- **Permanently Frosty “Iced Tea” Decal** – applied at factory. Generates increased profits by captivating thirsty customers.

Sizes to meet every need.

- Available in 2, 3 1/2, 5, and 10 gallon capacity models.
- Optional Sight Glass Available on All Models.
