## Specifications

Exterior body is constructed of $0.75^{\prime \prime}$ Melamine reinforced front and rear panels with 22 gauge stainless steel skin and 1" polyethylene horizontal rib supports. Horizontal brace on rear is constructed of 18 gauge galvanized steel. The exterior ends are unfinished.

Exterior top is constructed of 14 gauge stainless steel. Horizontal top supports on front and rear are constructed with 18 gauge galvanized steel. Top end supports are 12 gauge stainless steel.

Interior base bottom is constructed of 16 gauge galvanized steel. Vertical base support braces are 14 gauge galvanized steel.

Legs: Bases mounted on 6.12" adjustable legs.
Electrical: 120V-15A duplex (GFCI) receptacle. Nema 5-15R 15.0A breaker.
