Fryer oil disposal system

MODEL **ODS-100**

ODS-100 fryer oil disposal system

General Information

The unappealing job of draining, transporting and disposing of spent frying oil becomes much easier with the Henny Penny ODS-100.

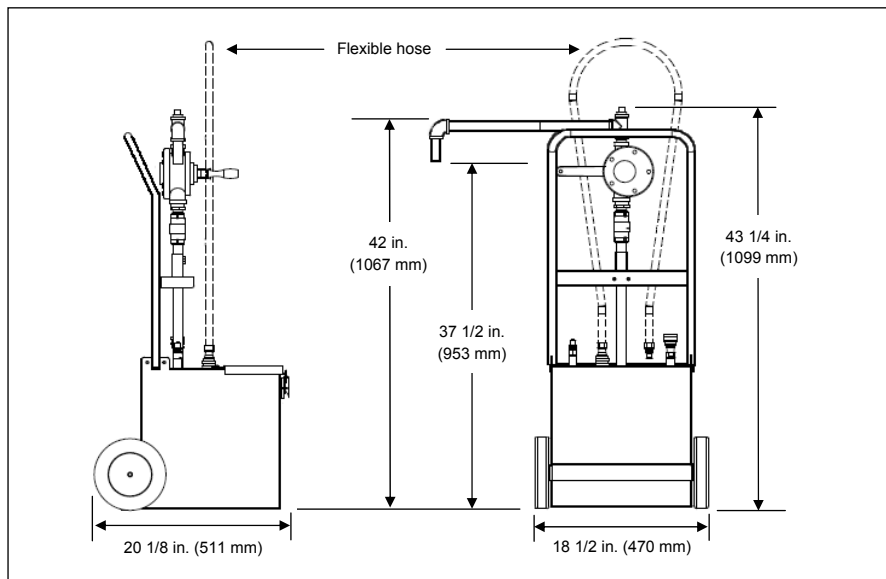

Just drain spent oil into fryer filter pan, attach ODS-100 hose to fryer filter rinse hose connection and switch on fryer pump. Oil pumps directly into 100 lb. capacity reservoir. Easily transports on two large 7 in. (178 mm) rear wheels.

One piece discharge pipe swings out to either side for convenience. A powerful manual pump is located at the ideal height, so pump-out is fast and easy.

Pump-out hose connects to pressure fryers and open fryers.

Standard Features

- Large 100 lb. (45 kg) capacity handles most fryer vats in one load.
- Pump-out hose with male and female quick-connect fittings—simply reverse pump-out hose to service open fryers and pressure fryers.
- Powerful manual pump empties 100 lbs. (45 kg) of oil in less than two minutes.
- Tall reservoir design offers small footprint and transport stability.
- Check valve insures consistent priming.
- One-piece discharge pipe swings at height to clear most containers.
- Easy-grip retainer screw locks swing pipe into any convenient position.
- Hinged access lid for easy cleaning—latches and seals to prevent spills.
- Large 7 in. (178 mm) rear wheels for smooth, stable transport.

Dimensions

Width	18 1/2 in. (470 mm)
Depth	20 1/8 in. (511 mm)
Height	43 1/4 in. (1099 mm)
Height to discharge	37 1/2 in. (953 mm)
Height top of swing arm	42 in. (1067 mm)

Required clearances N/A

Crated dimensions: Contact Henny Penny

Net weight: N/A

Crated weight: 66 lbs. (30 kg)

Capacity, oil: 100 lbs. (45.4 kg)
