

Model FMS60

Features

Berkel Model FMS60 planetary mixer is a durable, precision crafted machine that is engineered for long-term reliability, convenience and productivity. This versatile, all-purpose mixer uses a powerful, planetary mixing action to thoroughly blend, mix, aerate and knead ingredients for consistent and predictable results. The variable speed motor drive technology eliminates the clutch and allows changing speeds while the mixer is running (EasyShift™). This 60 quart mixer comes standard with a stainless steel bowl, bowl guard, spiral dough hook, batter beater, wire whip, bowl truck and ingredient chute. The innovative “two point” mounting system increases the ease of installing and removing the mixing bowl. The stainless steel bowl guard slides open for adding ingredients, and is easily removed for cleaning. Operator safety interlocks prevent the mixer from running if the bowl guard is removed, opened or the bowl is lowered. The FMS60 has six (6) speed options including a blend speed to control splash out. The FMS60 can be operated in a continuous run mode or by a 15-minute timer that will automatically shut off the machine after the desired processing period has elapsed. The FMS60 features ergonomically designed moisture resistant switches and No-Volt Release.

Model FMS60

Planetary Mixer

- FMS60 60 Qt. Floor Type Mixer with Hub

Standard Features

- ▶ Model FMS60 60 Qt. Mixer with 6-speed, 3 HP (continuous duty), totally enclosed, and permanently lubricated, thermally protected motor; furnished in 200-240/50/60/3/1, 15.0 (1 phase) amp, 8.3 (3 phase) amp, UL listed.
- ▶ Variable speed motor drive allows EasyShift™ change of mixer speeds without stopping .
- ▶ Hardened alloy steel helical planetary gears, fully sealed in lubricant with heavy-duty ball bearings, provide for long-term, dependable operation.
- ▶ Blend speed and 5 fixed speeds with slow initial acceleration to prevent product splash-out .
- ▶ Simplified “Two Point” bowl mounting allows easy attachment and removal.
- ▶ Manual bowl lift is hand wheel operated, interlocked and self-locking in top position.
- ▶ Continuous operation or 15-minute timed operation that automatically shuts off the machine in any speed after pre-determined time has elapsed.
- ▶ Stainless steel bowl, bowl guard, flat batter beater, wire whip, spiral dough hook, bowl truck and ingredient chute included.
- ▶ Bowl guard with safety interlocks prevents the mixer from running if guard is opened or removed.
- ▶ No-Volt Release prevents automatic re-activation in the event of a power interruption.
- ▶ Bowl guard easily removed for bowl access and cleaning.
- ▶ Reliable, moisture resistant stop and start switches.
- ▶ Solid cast base is mounted on rubber pads for vibration control and rust resistance. Attractive silver metallic epoxy enamel for easy cleaning.
- ▶ No power cord/plug provided for FMS60 model.
- ▶ #12 taper hub with optional #12 attachments

Options

- 380-460/50/60/3, 5.4 Amp, UL Listed

Accessories

- Stainless Steel Bowl
- Batter Beater
- Wire Whip
- 60 or 30 Qt. Splash Cover
- Spiral Hook
- Bowl Truck
- Ingredient Chute
- 30 Qt. Bowl Reduction Set
- FCMC – #12 taper hub meat grinder
- VSPH – #12 taper hub vegetable slicer/grater

Specifications

Design: Heavy-duty, all purpose mixer uses a powerful, planetary mixing action to thoroughly blend, mix, aerate and knead ingredients with consistent and predictable results.

Motor/Electrical: Model FMS60 60-Qt. Mixer with 6-speed, 3 HP (continuous duty), totally enclosed, and permanently lubricated, thermally protected motor; furnished in 200-240/50/60/3/1, 15.0 (1 phase) amp, 8.3 (3 phase) amp, UL listed.

Finish/Construction: Cast base finished in metallic silver, epoxy enamel for easy cleaning.

Planetary Gears: Hardened alloy steel, helical gears fully sealed in lubricant with heavy-duty ball bearings for highly dependable, quiet operation.

Speeds: "Blend" speed and 5 fixed speeds with slow initial acceleration.

Bowl Guard: Stainless steel bowl guard with interlock prevents the mixer from running if guard is opened or removed. Guard is slideable for adding ingredients and removable for cleaning.

Bowl: Simplified "two point" mounting provides easy attachment and removal of bowl.

Power Hub: #12 taper hub for use with #12 optional attachments.

Controls: Moisture resistant, conveniently located controls include ergonomically designed on-off switch, a 6-speed selector switch, and a 15 minute timer.

No-Volt Release: Prevents activation of the mixer in the event of a power interruption; operator must restart the mixer.

Standard Equipment: The mixing unit with one stainless steel bowl, bowl guard, flat batter beater, wire whip, spiral dough hook, bowl truck and ingredient chute.

Bowl Lift: Manual bowl lift is hand wheel operated and self-locking in top position.

Cord and Plug: No cord or plug included with FMS60 model.

Warranty: All parts, service and travel coverage for one year, exclusive of wear items.

As we continually strive to improve our products, specifications are necessarily subject to change without notice.
