## LESS IS MORE WITH CHAMPION'S DUAL RINSE MODEL 44 DR SERIES

Check our NSF listings and you'll see the Dual Rinse offers the lowest water consumption in its class with less than .54 US gallons per rack. This ENERGY STAR ${ }^{\circledR}$ qualified product brings energy savings. Our $40^{\circ} \mathrm{F}$ rise booster only requires 12 kW and $70^{\circ} \mathrm{F}$ rise is only 22 kW .
What the numbers don't show you is the advantage that our Dual Rinse technology provides by making sure all wares are fully rinsed with more than 300 gallons per hour while actual fresh water consumption is only 112 gallons per hour.
