

Whether it's pre- or post-procedure, there are certain times when a patient can eat only ice. They don't want big, hard, chunky ice. They crave Ice-O-Matic's perfectly pearlized ice that's soft and chewable and oh-so-refreshing. And you want to make sure you can deliver it with an ample supply and with less fear of spreading germs.

Touchless, dedicated spouts, one for water and the other for ice, make filling glasses and pitchers quicker and safer. You're less likely to cross-contaminate or contaminate at all.

When space is an issue, hospitals appreciate that Ice-O-Matic machines can deliver a never-ending supply in such a small footprint. On the counter or on our optional stand, Ice-O-Matic machines provide many ways to fit your space.

Ice-O-Matic 
Ice. Pure and Simple™

GEMD790

Optional Stand - GDS7

The sanitary way to dispense water and chewable ice

ICE.

That's all we do

Manufacturing ice machines in Denver, Colorado, since 1952, Ice-O-Matic has worked tirelessly to simplify, enhance and perfect the way ice is made. Since ice machines are the only thing we do, you'll find we offer the best in the business. Our machines are simple to operate, offer a lower cost of ownership than our competitors, and incorporate simple but thoughtful features—and that's by design. Additionally, Ice-O-Matic boasts many industry-leading features that make a real difference to you every day.

PURE.

Antimicrobial

Our innovative, food-safe AgION® antimicrobial compound is permanently integrated into essential food-zone areas. This innovation safeguards the sanitation of the ice-making system.

Water filtration

We offer the highest-quality water-filtration program to enhance the purity of the ice, eliminating unwanted taste and odor, which are common problems with unfiltered ice machines.

SIMPLE.

Practical design

Ice-O-Matic ice makers are designed for simplicity with features such as our easy-access cabinet, easy-to-clean ice-making system and simple electromechanical controls.

Long-lasting performance

Our ice machines are designed for unparalleled ease of operation, maintenance and service, with quick and easy diagnosis. And the same goes for our accessories.

Quality and reliability

Ice-O-Matic ice machines are highly dependable and constructed with the industry's only stainless steel chassis, stainless and rigid plastic cabinets, and other precision parts. Our machines boast proven reliability and are backed by the longest warranties in the industry.

Easy to do business with

We know time is money, and getting it right the first time is essential. That's why we strive to always recommend and install the right machine for the job.

Warranty

- Two years Parts and Labor
- Five Years Parts coverage on the compressor
