

# Grill Tender<sup>®</sup> Operator Instructions

Model 1101

**CAUTION:**

This machine contains a sharp blade and can cause serious injury or death if not handled properly. All operators of this equipment should read these operating instructions before handling equipment.

Prior to using this equipment, it is important to clean the unit. Wash new blades with warm soapy water and rinse thoroughly to remove the thin protective oil film.

Prior to each use check for broken, nicked or dull blades and if found, replace the blade.

## HOW TO USE

Quickly and easily remove carbonized food from your grill surface with the Redco<sup>®</sup> Grill Tender<sup>®</sup>. Equipped with a splashguard and an extra-long handle that is positioned above the grill, the Redco<sup>®</sup> Grill Tender<sup>®</sup> scraper offers added protection from burns.

1. With one hand on the Handle Casting (see illustration on next page) and other hand on the Knob, place the Redco<sup>®</sup> Grill Tender<sup>®</sup> scraper on the grill surface. With a firm front-to-back motion, scrap the carbonized food particles from the grill surface.
2. Repeat steps as needed to keep the grill surface clean.
3. Clean the Redco<sup>®</sup> Grill Tender<sup>®</sup> scraper after each use to maintain optimum performance and extend the life of the blade.

## CLEANING & BLADE REMOVAL INSTRUCTIONS

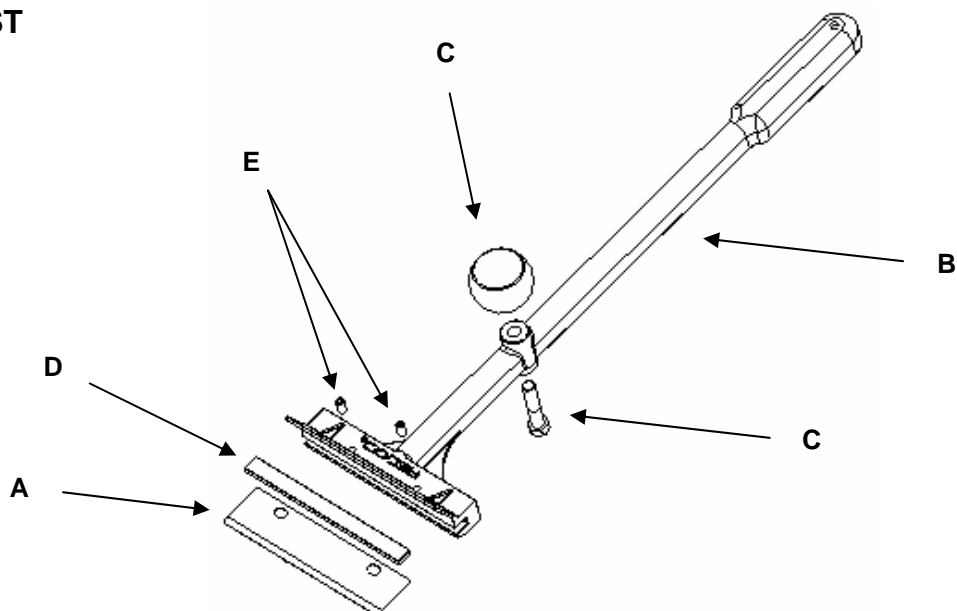

### CLEANING

1. Wash the Grill Tender® Scraper in mild soap and hot water.
2. Rinse and air dry.

### BLADE REMOVAL

1. Loosen the Pressure Plate Retaining Set Screws with an Allen Wrench.
2. Carefully remove the Blade and Pressure Plate from the unit. Properly dispose of the old blade.
3. Carefully align the replacement blade and pressure plate into the groove of the Head Section Casting.
4. With the pressure plate and blade in place, firmly tighten the set screws to securely fasten the blade and pressure plate to the Head Section Casting.

### PARTS LIST

LETTER	PART NUMBER	DESCRIPTION
A	1102R	Blade, Single G.T.S.
B	1108R	Head Section Casting / Handle
C	1109R	Knob Assembly includes Knob and Bolt
D	1106R	Blade Pressure Plate
E	1107R	Pressure Plate Retaining Set Screw
