

16" SECTIONAL RANGE Full-Width Uniform Hot Top

Model P16C-H with optional 24" flue riser

STANDARD CONSTRUCTION SPECIFICATIONS

Exterior Finish: Front, sides, rear and exterior bottom constructed of #3 polished 430 and 304 stainless steel.

Range: 16"-wide front-manifold sectional range with full-width 40,000 BTU NAT (20,000 BTU LP) uniform hot top with removable stainless steel plates and a surface temperature of up to 700°F (371°C).

Front Rail: 9-1/4" front rail.

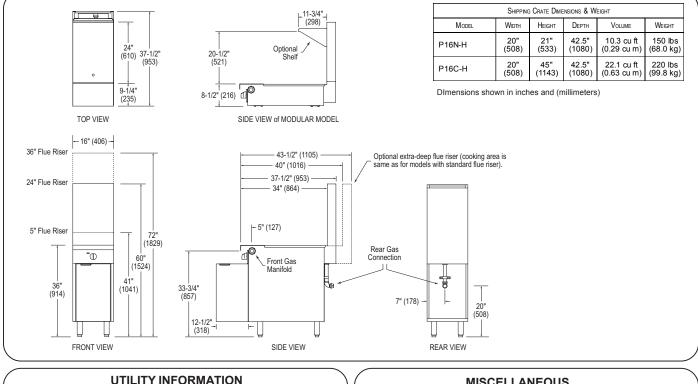

Flue Riser 5", 24", or 36" high flue riser with optional shelves (one on 24" flue riser, one or two on 36" flue riser). Shelves can be solid, tray, or tubed.

Battery: Unit can be in any position in a battery. If the unit is at the end of the battery, the end side will be solid (rather than have a coverplate over the end of the front manifold).

Legs: 6" stainless steel adjustable legs standard.

Model 16C: Stainless steel cabinet base with a removable door that can hinge on the right or the left.

	Model	Gas (BTU/HOUR)	
		NATURAL	PROPANE
	P16N-H	40,000	36,000
	P16C-H	40,000	36,000

GAS: Each unit has a 1-1/4" front manifold that couples to the adjacent sectional unit(s), and a 1" rear gas connection with a male NPT connector. Minimum gas supply pressure is 7" W.C. for natural gas and 11" W.C. for propane. All sectional units require a regulated gas supply (a pressure regulator must be ordered separately). If using a flexible-hose gas connection, the inside diameter of the hose must not be smaller than the connector on the unit and must comply with ANSI Z21.69, providing an adequate means of restraint to prevent undue strain on the gas connection.

MISCELLANEOUS

- · If casters are used with a flexible-hose gas connection, a restraining device should be used to prevent undue stain on the hose.
- · Minimum clearance from noncombustible construction is zero. Minimum clearance from combustible construction is 10" (254 mm) on sides and 12" (305 mm) on rear.
- · Installation under a vented hood is recommended.
- · Check local codes for fire and sanitary regulations.

NOTICE:

Southbend has a policy of continuous product research and improvement. We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

OPTIONS and ACCESSORIES

- External pressure regulator
- □ Front rail options:
 - cutouts in front rail for sauce pans □ 7-1/4" front rail (to match old style sectional)
 - □ square belly bar mounted on 7-1/4" front rail
- Casters (front two casters lock) □ Cable restraint kit (to restrict
- movement when on casters)
- □ 5", 24", or 36" high flue riser
- □ Shelves on flue riser (one on 24" flue riser, one or two on 36" flue riser)
- □ Shelves can be solid, tray, or tubed
- □ Open-frame base with casters for batterv
- □ Extra-deep rear-extending flue riser
- Removable shelf inside cabinet
- Electric gas shut-off kit
