This equipment is designed and sold for commercial use only by personnel trained and experienced in its operation and is not sold for consumer use in and around the home nor for use directly by the general public in food service locations.

VOLTAGE

The steamer is equipped for use on the voltage specified on the nameplate.

WARNING

DO NOT CONNECT TO ANY OTHER TYPE OF CURRENT OR THE MACHINE WILL BE SERIOUSLY DAMAGED.

INSTALLATION/OPERATION PROCEDURE

1. Place the unit on a level surface. Pour approximately 9 (Model 35) to approximately 12 (Model 70) quarts of water into the water pan. You can add an additional 2 quarts when not using the juice pan. Do not overfill. Using distilled water will prolong the life of the heating element.
2. Turn the switch to "ON" position and set the thermostat control on "HIGH" until steam is generated. Normal heat up time is 30 minutes. Using hot water will reduce heat up time.
3. After pre-heat, place hot dogs on the top or bottom hot dog shelf. Arrange the hot dogs so that there is free circulation of steam. A full load of refrigerated hot dogs will take approximately 45 minutes to reach serving temperature.
4. After the hot dogs are brought up to serving temperature, turn the knob to a 3 or 4 setting and add the buns to the wire rack in the bun compartment. One can control the steam in the bun compartment by opening the water fill compartment at the front of the bun compartment.
5. To hold the product, set the thermostat control at setting 3 or 4.
6. Keep the door closed when not serving.
7. Add water as it becomes necessary to maintain the water level. (Add hot water for best results.) All models are equipped with a low water level indicator. When the light comes on, add water.

CAUTION

DO NOT ALLOW THE UNIT TO OPERATE DRY; THIS MAY DAMAGE THE HEATING ELEMENT. ADD WATER WHEN REQUIRED.

AT THE END OF EACH DAY'S OPERATION

1. Disconnect the power cord from the outlet.
2. Remove any remaining hot dogs and buns.
3. Allow to cool and drain the water through the drain pipe.
4. Remove the inside components of the steamer. It is easiest if the suggested order is followed:
 - a. Remove the divider.
 - b. Remove the wire bun rack.
 - c. Remove the top hot dog shelf.
 - d. Remove the bottom hot dog shelf.
 - e. Remove the bun shelf.
 - f. Remove the juice tray.
5. Reverse the order to reassemble the unit.

POSSIBLE SOURCES OF TROUBLE AND SUGGESTED REMEDIES

Casing of hot dogs burst.

- 1) Too much steam is being generated. Move the thermostat control to a lower setting.
- 2) When using frozen hot dogs, allow them to thaw before putting inside the unit.

Buns too soggy or too dry.

Too much steam or too little steam will produce this condition. Control the amount of steam by adjusting the thermostat control as required or adjust the humidity control lever located in the bun compartment on the bun tray. Do not put buns in the unit while hot dogs are cooking on high. They will be too soggy.

Some buns are better adapted for steaming than others; with some experimentation you will find the one best suited to your needs.

THOROUGHLY INSPECT YOUR UNIT ON ARRIVAL

This unit has been tested for proper operation before leaving our plant to insure delivery of your unit in perfect condition. However, there are instances in which the unit may be damaged in transit. In the event you discover any type of damage to your product upon receipt, you must immediately contact the transportation company who delivered the item to you and initiate your claim with same. If this procedure is not followed, it may affect the warranty status of the unit.

LIMITED EQUIPMENT WARRANTY

All workmanship and material in Star products have a one (1) year limited warranty on parts & labor in the United States and Canada. Such warranty is limited to the original purchaser only and shall be effective from the date the equipment is placed in service. Star's obligation under this warranty is limited to the repair of defects without charge, by the factory authorized service agency or one of its sub-agencies. Models that are considered portable (*see below*) should be taken to the closest Star service agency, transportation prepaid.

- > Star will not assume any responsibility for loss of revenue.
- > On all shipments outside the United States and Canada, see International Warranty.
- * The warranty period for the JetStar six (6) ounce & Super JetStar eight (8) ounce series popcorn machines is two (2) years.
- * The warranty period for the Chrome-Max Griddles is five (5) years on the griddle surface. See detailed warranty provided with unit.
- * The warranty period for Teflon/Dura-Tec coatings is one year under normal use and reasonable care. This warranty does not apply if damage occurs to Teflon/Dura-Tec coatings from improper cleaning, maintenance, use of metallic utensils, or abrasive cleaners, abrasive pads, product identifiers and point-of-sale attachments, or any other non-food object that comes in continuous contact with the roller coating. This warranty does not apply to the "non-stick" properties of such materials.
- > This warranty does not apply to "Special Products" but to regular catalog items only. Star's warranty on "Special Products" is six (6) months on parts and ninety (90) days on labor.
- > This warranty does not apply to any item that is disassembled or tampered with for any purpose other than repair by a Star Authorized Service Center or the Service Center's sub-agency.
- > This warranty does not apply if damage occurs from improper installation, misuse, wrong voltage, wrong gas or operated contrary to the Installation and Operating instructions.
- > This warranty is not valid on Conveyor Ovens *unless* a "start-up/check-out" has been performed by a Factory Authorized Technician.

PARTS WARRANTY

Parts that are sold to repair out of warranty equipment are warranted for ninety (90) days. The part only is warranted. Labor to replace the part is chargeable to the customer.
